hydra1945JavaxcxAlso don't forget that the whole "WTF FUD BANZ 4 NO RESON" is nothing but rumour given in testimony from those whiny tards who don't get a reason from us when they're removed. There is a URL in our MotD that the rules of our server can be read, and strangely enough, I would bet that a good 95% of people don't read them, and a similar precentage of them are the ones who whine about being banned after the matter of fact, too.
Most rules for other servers make sense. 3/4 of the rules for FUD servers are just retarded.
I actually don't have a problem with the way FUD run their server at all. I'm damned if I let someone tell ME how to run the servers I pay for and maintain. I extend the same courtesy to FUD.
