AircraftkillerTo each their own. Reborn still sucks. The Redeye looks like the real launcher, which looks like crap. That's normally what military hardware looks like.

Apache, why do you even come here? All you post is trolling garbage. How can you profess to be a practicing Christian and be an asshole at the same time?

Heh, I want a verse that specifically states that I cannot post on a forum simply because I don't play the game it relates too very often, or the verse that states that I cannot tell someone when their head is up their butt? Quite simply, attacking my religion seems like a bit of a shot below the belt. Kinda low if you ask me.

Not being a major part of this community anymore, I feel I have the right to post exactly what I want. If I see a good reborn model, I will post about it being a good model, if I see a poor model, I'll do the same. Same goes for RenAlert. I'm not biased towards either mod.

The only reason why I "troll" is because you need to get your head out of your butt and loose the superiority complex. Your stuff is good, but it isn't the best out there. You'd be a much better part of this community if you went ahead and helped people rather than just point out every little nitpicking detail out. (Seems you me you don't like it when people say your work sucks, so stop doing it to others, I'm sure you've heard someone say "do onto others what you'd have done unto yourself")

So yeah, I'll continue to post here, and I'll continue to tell you to remove your head from your butt as long as I want to. If you have a problem with me, so be it.
