nope, that would be the westwood 1.037 patch. here's what ya do. uninstall rougeguard (not redguard, rougeguard). download the 1.037 executable, ftp://ftp.westwood.com/pub/renegade/updates/Renegade_1037_English.exe and put it in C:\WESTWOOD\RENEGADE, THEN use it. this way, you shouldn't get a forever message about restarting.
