i've been playing guitar and bass for about 3 years now. Myself i was the rythem guitar in a band with my brother as lead , best freind drummer (been playing his entire life though) and my second best freind (lol) as bass (He's a fucking god with that thing)

I've got a Ibanez AX120, a pevey 45 watt amp, a Fender 15 watt. I also have the "Blg Muff" pedel of the same year model and make as the one jimmi hendrix used on "purple haze"
