JoeyACK, I really hate your guns your always hard on everyone because you think your better then them. Renegade sucks, your RA1 mod is good...model wise,, but the skins and maps SUCK, you RIP music from games, put them in your map, and give NO credit.

I and a huge number of people dont care for you at all...

Sounds like killakanz signing up a new name so he doesn't have to use his old one to come back again and look like a fool.

Please prove I ripped music from games... The only one I took any music from was Ace Combat 3 and I legally own it, bought it two years ago at the Wal-Mart in Apopka, Central Florida, for \$49.95.
