bigejoe14phlakatonIt's real. It's also an indication to me that the C&C Universe... the intellectual property of EA... is now in serious trouble. Who knows what kind of crap those execs will spit out in the next cycle of C&C games. Red Alert was made by all those involved on this last RTS LOTR... Skaggs, Bonin, Browder... they handled RA ok... but having the C&C Universe in their hands is a frightening thing. I hope it's not ruined forever.

You act as if it's a matter of life or death. It's a fucking computer game. Get over yourself.

Class act fucko. You wake up on the wrong side of the bed? Too much anger for one person.
