j_ball430No offense, but all three suck. They're horrible, and the fact that you paid $10 for something I could make in the matter of 5 minutes is just pathetic.

If you want to make something like that (with the navbar and the tables) that looks better, $10 can be yours... lol...

seriously, if you do want $10, tell me here so I can think it over

P.S. If you do wanna do this I want the rights to the template once I pay you, and keep it HTML...
