You obviously don't know the difference between contradicting what was said over the span of three years and pretending to be what you're not. Opinions change over time, that doesn't make people hypocritical. It means their current opinion contradicts their previous ones, either through a gain of knowledge, experience, or lack thereof.

I haven't made anything for Renegade in like a year, if not more. The day I stopped was the day I realized the game sucked and needed to get improved. I said I would work on it if it were improved and no one will step up to the plate and actually do something about it.
