EatMyCarWNxCABALNightma12they already have there own W3Ds

Yup   Yea,but i'd like to use them on another character. (eg:somebody takes one of the skins and reskins them on another W3D such as the W3D for Hotwire.),or somebody rename the .W3Ds/.DDS files for use on another character. btw,here is the list of all of the 'freaks'...

MR.TICKLES.DDS
TRIKE.DDS
DINO.DDS
CHICKEN.DDS
DOLF.DDS
"C_GDI_MUTANT.DDS ;Initiate in GDI 'clothing'. not used ingame...may have something to do with a PT icon for mutants"

Actually, it was supposed to be a GDI version of the Initiate, I think.
Same with the 2 other mutants, but my guess is they never made it to the final cut. =/
As for the rest, my guess is as good as YSLMuffins...I have no idea. =p
