lol.......i was banned to.... yeah, me is owned...but not for lang.

the ban was not a really smart thing of renguard....i would say : ban them for 2 weeks if they try to bypass ...if they do again 4 weeks....etc.... much more effective.
cause...now i banned its far more actractive to cheat and more easy...

cheats are made with Point reducing....you can destroy 2 buildings without being 1 on the list. I guess from the people who can cheat 40 % is using a cheat... and 70 % of that people is banned....so =

You only helped us...nothing can stop us when we are using Stealth Cheats..and if we are forced... we use one of our other accounts
