Maybe those Deth members actually wanted to see that map appear in the next Core Patch, isnt that the point of this poll? To see how many people want that map in the Core Patch? If you asked all those 225 people to come here and vote for your map, then it would be fine. Because obviously, if they didnt want it to appear in the Core Patch, then they wouldn't vote for it, would they? So its perfectly fine that most people in DaDeth have voted for Deth_River, because they want to see that map in the core patch, just as your 225 people might want to see one of your maps appear in the next patch.
