the reason i think its rg is cause i am trying 2 ways to get into renegadrde and gsa closes out every 5 mins and all seeing eye closes out ever 3 mins.

and i didnt set my connection too hight casue i have 3 meg internet service. so how ever its set it did it its self. and the allseeing eye ran a self test to test my internet.

i wonder if my problem has anything to do wiht the rg reconnect problem a another dude is having?

and also i dont gget any messages from rg wwhen i get kicked just saying i joined and left servers is all. ITs pain in the fucking ASS casue i cant play more then 5 MINs. So one plz help!
