Show me an aimbot that improves our k/d ratio, then we'll talk. The most popular aimbot is OGC hook and it actually lowers your accuracy and is therefore bullshit and not worth our time to counter.

We have NEVER claimed that RenGuard would definitely positively stop 100% of cheaters. It does in fact stop ALL publically-released cheats. Anyone who thinks RenGuard is not helping obviously has only started playing Renegade AFTER RG came out, because they don't remember what it was like when you couldn't even play for 10 minutes without some final Renegade user coming through and changing the course of the game.
