almor999 wrote on Sun, 18 September 2005 16:54 I am assuming that is the mod you are talking about?Yes, but in comparison to MP, I had a ping of 500(!) on it, although it's an 8 Slot server. MP has only 200 due to the fact I'm connected from Europe (all WOL US servers aren't below a Ping of 170 on my side, I know you US/Canadian guys have green lights -I have only yellow in the game listings). Never figured out why, I have this issue since WOL changed some settings last summer.
