Now I don't want this to be mean, but seriously, do people have no common sense?

Anyway, to be nice, here is what you should do.

- 1) Uninstall Renguard.
- 2) Uninstall Renegade.
- 3) Delete any files that were left over.
- 4) Install Renegade.
- 5) Install Renegade Patch.
- 6) Install Renguard.
- 7) Install CP1 if you wish.

Enjoy.
