Core Patch 1 Introduction
==========================
From the Creators of RenGuard, Blackhand Studios(tm) proudly presents "Core Patch One". CP1 is
first unofficial C&C Renegade update which fixes several bugs identified in the game. Many fixes and
changes were made to the original maps including additional sounds, more effective vehicle blocker
prevent wall jumping, and other special effects. The much hated ability to do base to base attacks o
certain maps has been prevented. Multiplayer radio command icons are now available, Obelisk pow
will be audible, seamless interaction between the Renegade client and the Free Dedicated Server w
introduce server-side enhancements that make available the best effects ever achieved in Renegad
muliplayer gameplay.

The people who have been eager to play the best Fan-made maps available at this moment haven't
left out. Six incredible maps, C&C_FieldTS, C&C_Gobi, C&C_Sand, C&C_MutationRedux, C&C_Sieg
C&C_Snow are all available through this update. Gobi, Sand, and Snow were among several maps
intended to be released by Westwood Studios, and through the efforts of prolific level designer
