I've also installed cathode lights since those pics.

Stuff:

2.6GHz p4 (being replaced with an athlon 64 4000+ soon
NEC shite mobo (being replaced with an MSI NEO2 mobo soon)
80GB Seagate HDD (being replaced with a Samsung 160gb 7200rpm SATA HDD)
External 160GB HDD for backups.
256MB Geforce 6800 GT
1024MB (2x 512) PCI2700 33MHz RAM (hopefully to be upgraded to 4x 1GB sticks when I get a job with decent hours)
DVD-Writer
DVD drive
Philips Sonicedge 5.1 Sound Card
5.1 100watt surround sound
5 port USB hub (1 internal)
Netgear network adapter
4 case fans
400watt PSU
Digital Media Pro Keyboard
Packard bell mouse
Casio EXilim Digital Camera
And best of all, a torch, just in case!
