nrd072 wrote on Thu, 01 December 2005 07:56I tried it but it still doesnt work,
the following text appears when i try to start renegade:

If you experiance problems with renegade (e.g. renegade wont start, always.dbs missing, wrong
language), make a note of what this program says and report it to Blackhand Studios.
Language ID = 0
English Detected
Removing old always.dbs
Removing new german always.dbs
Removing new french always.dbs
Renaming new english always.dbs
Now renaming scriptsx.dll to scripts.dll
error 17

I don't know what to do,
I just want to play some renegade, online or single player...
This all happend since I installed Renguard,
This happens when I start with Renguard:

Can't find entrypoint from precedure
?Detect_Bandwidth@@YAKKKHAAHAAKKPAUtBandtestSettingsStruct@@@Z in
DLL-Document Bandtest.dll

First off, it seems to be the almost ubquitous, albeit harmless, error 17 that the CP1 installer is
spitting out. Second, apparently your bandtest.dll is goofed, give me your AIM or MSN and I'll
send you a copy of mine.
