I made a little program for you modders out there. This will allow you to select the people you want for bot drop-offs.

You can add your custom presets for soldier's and everything, of course.

You can have this thing unload 15000 soldier's if you want, it will go all day.

Its not pretty yet, ill add graphics and Vehicle/Powerup drop-offs tommorrow. This is just a little taste.

If you have trouble running the program, you most likely dont have the VB 6.0 runtimes.
