Ok ... Been playing Ren for a long time and just re-started playing to day , The game Runs great with out Renguard.. I instaled Renguard tryed to play and got ... Game.exe Application Error . The application faoled to initialize properly (0xc0000005).Click on OK to Terminate the application. Ok i tryed eveything to fix this problem but Felid evey time (reinstalling the game , reinstalling renguard EVERYTHING , i could think of. Some one Plez Help ASAP (the Game runs with out Rengurard)   Love the game to much to not just play
