What an idea, thats no idea, I think Icedog should be the next moderator.

If AircraftKiller ever wanted to be a moderator on this forum, he would have became one just like that, He has the Power do do almost anything he wants in this community, He's friends with the highest of the people like Crimson, Olaf.

He wouldn't care to shit to be a moderator here, To him were abunch of kids arguing. For us Attempting to bash ACK to ACK is like abunch of 6 year olds coming up to us and saying "You a poopoo head"

ACK RULES US ALL!
