Now as horrible and annoying as Point Whores, or Puss.W's as they have been called are, they

two remote C4's on either side of the hill and blasting away two enemy Artillery pieces?

Or how about parking a Nod buggy beside your base while waiting for that Gunner rush?

You know, one that really is amusing is popping the skulls of the moron Flame troopers in Field who try to take out the Barracks.

Of course that is not nearly as entertaining as taking out ST Harvy hunters on City.

The idea is simple; if you can win then win.

together.

Take charge.

Ask for Command.

Give the order.

Crush the opposition.
