sparks wrote on Thu, 14 September 2006 21:29Thanks for the information! I hope the 64bit version would be out soon.

Meanwhile, to avoid being kicked every 5 mins, I'm thinking of install another OS, Windows Vista RC1 32bit, just to play renegade. Does anybody know if the current version renguard would be working on Windows Vista RC1 32bit?
Thanks.

I highly doubt it. Though it doesn't hurt to try.
