I am an easy going person until someone has done me wrong.

I found once a person has done me wrong, I am done with them altogether. I put distance between that person and myself for good.

You should probably do the same. Ignore him and over time it just goes away.

From what I read I do not see you as the one at fault and don't even see a need for you to continue justifying yourself at all.

This is a kid your dealing with.

With that said, I wouldn't your waste of time and effort.
