I hate when you're rushing in a apc, you havn't been caught, and BOOM

Blue hell, I'm like OMFG FOR THE 100 TIME THIS WEEK, BLUE HELL SUCKS!

Mostly when i just get in a Tank tho, It's weird.

On a few server's (Tonyrolm pointed this out) It's when you're running server side stuff, Like .ddb .isd .lsd , I think that could cause Blue Hell, Not sure.
