Voted YES! Didn't take me long to think about it too. Although he has his funny moments too, the stuff he did (like leaking beta's) would have had him earn a ban on other forums too. This should have happend a long time ago too. There are now a few dozen ack copycats posting on these forums, that think it is ok to just turn every thread into an all out bashing. It's a pitty it took Ack bashing you personally to see this. But hell, better late then never.
