Crimson is where she is now from her own hard work, her dedication, and support for others (the list would go on but I would not want Crimson to catch the big-head hack). Not because AircraftKiller said she was a good team player in a few games of renegade. Even if her position was a direct promotion of AircraftKiller (which I doubt it was), eventually you have to prove that you've got the goods; Crimson has done that 10 times over.
