As for the Tiberium settings you will have to modify the "surfaceeffects.ini" which will be located in the always/ini directory of you mod folder.

Quote:- Rename your server objects.aow to objects.ddb Only if you renamed it in the first place.

Quote:- Open these objects.ddb in LevelEdit It should open it automatically.

Quote:- Edit the values you want for the sniper weapon and general tiberium settings

Quote:- Save the objects.ddb file
Just go and quit out of level edit, and it should ask you if you would like to save.

Quote:- Rename it back to objects.aow Only if you did step one.

Quote:- Put it back in the server data folder If its a .pkg you won't do this .
