Goztow wrote on Sat, 17 February 2007 04:06Do you have directx 9 installed?

Yes I have it. I made sure like 10 times. I have the version I'm suppose to have according to a recent post that you must have Directx 9 update or whatever. I have it all.

On upon loading Renegade, it gives me a black screen then I get that stupid windows message thing that says

"blah blah encountered a problem"

SEND REPORT, DONT SEND

I'm sure yall seen that kind of message before with other programs.
