Subject: Help with Intro movie (.bak)

Hey,

 I need a bit of help with the renegade intro movies, I've tried replacing them with other .bak files with the same name and all, but when i go ingame they lack sound. I remember about a year ago someone posted a solution on the APB forums, but I can't find it. Does anyone know how to fix this so the movie I place in the folder plays it's music?

I'm converting a short AVI to the bak with the RAD video tools.

Help would be appreciated.
