This guy can probably explain it all very well.

I got the mac just because it works, it just works.

lmfao?

"Ever notice how most Mac users are skinny? It's because of all the calories they burn because they can't shut the fuck up about how great their Macs are. What is it about Apple that makes its users unable to shut their mouths? Everywhere I go, there's another asshole with a Mac preaching about how much better Macs are than PCs. They regurgitate lines directly from Apple's marketing campaign, like "it just works.""

It doesn't "just work," the only reasons you don't get viruses is because the virus making geeks don't waste their time on it. They can reach a bigger chunk of the population with Windows alone. See? Not even the creators of viruses waste their time on Macs, haha.

Anyway, if you get viruses, stop watching porn and get a girl. I don't have ad-aware, I don't have an anti-virus program, I don't have a firewall and I've never had a virus. Only idiots get viruses (i.e. the people that switched from windows to mac because they got viruses).

If it was so great Windows wouldn't have raped Apple the way it did. It's all you lefty big corporation haters that ever say crap like that. Why hate on Bill Gates and Windows for being successful? They made the better product, deal with it. Use whatever you prefer but no need to hate on Microsoft because you're too stupid to get your computer to work after sitting on it every day for 3 years.
