Good Idea. I'll also be adding teleporters in the same places they would be found in the game.

And

Oblivion165 as soon as I finish the map I'll send you a copy so you can do the animations.

What should I do about water and water levels? To bad havoc can't swim.

Should I leave the castle entrance like the way it is or should I put a door like the other rooms?

Also should I just make this a death match map or should I put some bases in the map... like maybe the hand of nod and a refinery could be in some level in the basement and gdi could be in another level.
