rm5248 wrote on Wed, 20 June 2007 08:10 What would be cool(though possibly impossible) would be to have grappling hooks that you could fire from one zeppelin to the other, and then go over on the ropes.

I have already did this, although when the "hookshot" (it's for my Legend Of Zelda Mod) an object it can grapple to it just instantly teleports you above it.
