The one main problem with mapping is that when you ask for stuff already done, it will probably never come close to matching what you intend to have or make eventually. I don't personally have anything close to what you discribed , being done, most my work i scrap or take an extremely long time to make.

The only thing i personally have that i never fully finished was a mountain map and with learning you could alter alot of the terrain and remove buildings as needed etc.

If i were done with my current island for rp2 i may offer it but i still got a long ways to go lol.

Anyways pm me if youd like this map, i know its not at all what you suggested but the only thing i have "up to date".

Needs alpha blending hence the sections split up.
