get off my Internet, I'll be studying graphic design for the next three years, thanks to this and something else I made for APB.

Also, I don't need to be able to do texture before stating my opinion on someone's 2D work... If that even qualifies as work, I feel like I've seen this stuff in Always.dat

That still doesn't change the fact that it's a BB gun.

It also doesn't change the fact that your being a pompous asshat.

edit Aww..., I just noticed where you are from. It all makes sense now.

Tank, great job with this one! I'm looking forward to your work as you hone your skills.
