Hey yeah, great idea of the converter.
I am gonna download it tomorrow or later because you know we are both living in The Netherland and it is now for about 02.48.
Getting late over here, i really gonna try that.
It's still strange why it dit save perfectly before.
btw people, sorry that I put this topic in the wrong selection.
If it still doesn't working, you'l hear.
If it works, I'll make a link to the same site I got it from.
Peace Out!!!
