I have no problem with the Weapon power ups working and I know what scripts I wanna use for the Special Powerups liek the stealth suits and armor medals and what not, but with SSGM these power ups refuse to spawn. Hell, I have trouble having anyof them spawn in SSGM

and yes, both SSGM.ini and the CNC_*.ini in the data folder are turned on to spawn weapons. but they dont work. they dont show up on the map. they are there in LE but not ingame
