Ryan3k wrote on Mon, 06 August 2007 11:51 Perfect Dark for the 64 is one of my favorite games of all time. That and Goldeneye 64, although I think PD was better.

Are you into the F-Zero series?

Loved the one for 64 but never knew they made more! Hellz yes.

PD all the way for me, a few people came over once and we just couldn't play goldeneye anymore...fond memories but it just cant stand the test of time. We popped in PD 64 and good times were had by all! We had our own personal bots and would use them to defend imaginary territory from one another.
