Well it starts like this
when i setup my FDS wol server
it will open but crashes when it wanne connect or something
i can do it with GAMESPY.
but when i use the WOL server it keeps crashing
whats up with that?
gamespy will work
and wol dont
and believe me i do everything correctly
maybe the pc too slow ?
im using a Pentium 3 885 mhz / 256 ram must be enough right
