When I open rengaard to to open renegade it says in the little box:

[08:25] Unauthorized file game2.exe has been found in your renegade directory.

[08:26] You have been disconnected from RenGuard, ImaPsycho.

But I can't find anything called game2.exe in my renegade data to delete. It was working fine last night but now it says that every time.

Also, because it disconnects me from rengaard, it won't even F***ing load renegade so I can't even play non-rengaard servers.
