Yeah thanks for the info and help but im still really lost! I don't think ill ever get those flying mixes.

Still, umm a bit of the topic here people but can someone please tell me why when i go to "Make" a Cnc_GDI_Orca from the Preset menu it gives me this error!

Below is a SS of the error, please help, it's really annoying!

D.C. If you are placed and in why when i so to Edit I avail C

P.S If you can please explain why when i go to Edit, Level Settings and click on it i get pretty much the same error
