That computer right there is can't and will never connect to the internet. Anyway the cheats were made by me and I only use cheats for my own fun in like Single Player and Multiplayer Practiece, never in Online play. Thanks I own all C&C games except C&C 3 and I play them all the time. That computer ther is a:

P II 400 Mhz cpu  
192 MB SDRAM  
16 MB Voodoo 3 Graphics  
10 GB HDD  
1 standard 42x CD-ROM (Read Only)

And yet you installed Simcity 4 which certainly wouldn't run on that spec machine.... stop lying. His machine barely runs it. Although his CPU will certainly overheat. (Needs 500Mhz) Hmm...I wonder what the RenBan 1.0 do...
