I don't know about the rest of you, but I'm with cheesesoda and Dave. If I come across a post and the first few words are "cell phone style" text, I'm not going to read the rest of the post, nor care of anything else that poster would have to say. Good English and grammar is very important when advertising anything; whether it be yours or not. I didn't know what the topic was about until I read cheesesoda's post.
