You let 0x90 get away with bypassing your products, but you have no proof I UDP flood servers and I get banned from XWIS..

Yup, we got attacked by your side-kick. It would be nice to know why, though.

I canceled payment for the server, it didn't get taken away by softlayer cause of the udp flood, kthx.
No, you didn't: they took it away from you because you refused to pay the huge bandwith bill from all the flooding.
