Some great servers for 56k...

adadserv - We Just For Fun (10 players)
aswami - Swami's Flying Circus (22 players)
ctmdedsrv - CTM Renegade Server (16 players)
fastc0nn - RenStation.net (14 players)
hitech2k - http://www.HazTeam.com **No Snipers** (20 players)
OnnaServe - House o' Love (Florida) (20 players)
ssppoo & ssppoo3 - Clan FUD Whine Free Server (16 players)

You get the idea, generally try to stick around dedicated 20 player servers and you'll have a good time, without lag being a problem.
