trooprm02 wrote on Sat, 05 January 2008 05:55Daemon Tools, Alchool 120% sucks :/ Why have a burned copy of the image when you can:

1)just copy the files and paste on another CD=100% copy.
2)mount the .iso, always have them mounted for the videos etc.

#2 wins everytime..
#2 fails when your harddrive crashes, so I would do #1 anyway, but use #2 normally.
