Quote:Command & Conquer: Reborn
Building Preset Pre-Release1/7/08
1/7/2008

Inside you'll find buildings to place on your maps. I've included
placeholders of the Walls, Gates and Defenses that will be included
in the first release. These are objects placed in level edit but
these will help you sculpt your terrain around them. You can then place
them in level edit when upon release.
