Subject: Radio commands in snipe only servers.
Posted by General Havoc on Thu, 17 Jul 2003 13:18:47 GMT

I tend to use "Defend the XXX" even when the building has been destroyed. SOme people shoud idiot the building is dead. Other people, mainly in my clan and who play on the server a lot will go to the structure to look and kill whoever is in it (normally a sniper or SBH). However if i accidently press "Defend the XXX" I immediatly press "Negative" to cancel the order if it was a mistake.
