OH yeah, and
```
....................,/?../
.................../..../

........./'/.../..../......./??\

.........\.................'...../

...........\.............(
. ............\.............\....
.............\.............\....
.............\.............\.... .
.............\.............\.... .
.............\.............\.... .
.............\.............\.... .
```

Remeber: You seen THIS first here! Carbon didn't write those mods, he stole them and with a tiny bit of modification in a few places, he calls them his own!!! DEATH TO CARBON-KID!
