I don't expect people to share my exact taste. There is just a few bands that I feel everybody should appreciate, but there's plenty more than I don't expect people to like.

However, that still doesn't detract from the truth that mainstream music sucks horribly. You have pop, R&B, rap, pop-punk/emo, punk, metalcore, and every other shitty genre under the sun that's popular with people.

If people are going to listen to a genre, then they should listen to the artists/bands that don't fucking suck. Again, I don't expect people to appreciate all of the bands that I do, but perhaps it wouldn't kill people to listen to the more talented artists rather than what's played on Top 40 radio.

There, I even left your precious electronica "music" out of this by focusing on the mainstream.
